## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **FINAL ACTION**

### ***Withdrawal of Rejection***

Applicants amendment filed 01/26/2006 overcome the previous rejection of by Kozawa et al. The reference of by Kozawa et al. Failed to disclose the increase of the width of the top resist pattern.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 9 are rejected under 35 U.S.C. 102(e) as being anticipated by Yamada of JP 04320347 A.

In regard to claims 1 and 9, Yamada illustrates, in figure c, a method for fabricating a mask including: forming a film to be patterned (3), forming, on said film, a laminated resist pattern (5/6) with a T-shaped cross section, and composed of a bottom resist pattern (5) and a top resist pattern (6), a surface area of said top resist pattern being larger than a surface area of said bottom resist pattern, and increasing width of said top resist pattern area, with a contoured layer (16), after the film is patterned via said laminated resist pattern.

***Response to Remarks***

The amendment filed on 01/26/2006, is sufficient to overcome the 102(e) reference.

***Conclusion***

Claims 2-8 and 10-18 are objected to as being dependent upon a rejected base claims 1 and 9, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The closest prior art of record, Yamada, fails to disclose: the materials of claims: 2-4 (and 5-6 which are dependent on claim 4), 10-12 (and 13-14 which are dependent on claim 12); that the resist pattern is not removed through the fabrication of the thin film, as in claim 7 and 15; the film is patterned via dry etch as in claim 8 and 16; and the structures of the limitations of claims 17 and 18.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory

Art Unit: 1765

period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
